RECD JUN 22 1967

Hon. Congressman
Washington 25 D. C.
U. S. A.

Dear Sir:

First of all, excuse me for taking some of your valuable working hours, but lately I have noticed the international campaign developed in order to find an organization or institution that in one way or another has been subsidized by the C.I.A. instead of trying to find those who are receiving money, training, etc. from communism to infiltrate Democracy.

I am enclosing herewith a declaration made 30 years ago, but which, as you will note, announces something which is being done right now.

I do not intend to stand as a defender of the C.I. A. because I know it does not need my defence, nor am I the adequate person for such a defence, but since my economic means are not enough to reach every citizen of this great nation with the message, I am addressing myself to you since you are their representative in the Congress of the -- United States of America.

Respectfully,

25X1
